

WARRANTY

JCT TRADE - VALVING

Franklins have been supplying plumbing fittings in New Zealand since 1954.

Our valves are made from genuine DZR brass and are manufactured by Watermark certified factories. They meet the material requirements of AS3688, comply with the NZ Building Code and carry a 5 year warranty.

The 5 year warranty applies to all DZR brass fittings distributed by Franklins.

Franklins is unable to warrant in any way the following aspects of any valving installation.

- Poor workmanship and or wrong installation practices.
- Against corrosive liquids which may be transported by or stored within the system.
- External causes, where external, physical or chemical qualities produce damage to the fittings, such as, without limitation, unsuitable and hostile environments; used in underground applications without suitable protection.
- Abuse, such as, without limitation, flooding, windstorm and lightening.
- Any other cause beyond the Manufacturer's control.
